DETAILED ACTION

Allowable Subject Matter

1. Claims 14-16, 18-24 and 29-31 are allowed. The following is an examiner's statement of reasons for allowance: The arguments presented by the applicant in his Appeal Brief mailed on March 25, 2004 are persuasive. From applicant's arguments, it has been concluded that the provision of a sensor that measures the axial elongation from the change in an interval ratio of the pulses generated from said sensor that detects the two marks formed on the rotational surface of a shaft that are inclined in an opposite manner so as to form a "V" shape, is neither disclosed nor taught in any piece of available prior art.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
